- ✓ Clinical Challenges Forum

WHO SHOULD ATTEND?

All health professionals who treat weight bearing linkages.

If you are looking for alternatives to:

- Support / bracing the foot
- Steroid injections / Oral painkillers
- If you prescribe / advise footwear or prehab / rehab for surgery, this is for you!

By Australia's leading expert in clinical applications of footwear with a special interest in medical laser / PBM for healing injuries and pain.

ABOUT BRONWYN COOPER

– Convenor of Pod Laser SIG, Pain Podiatrist, Clinical Consultant to Heal With Laser, Leading clinician in application of:

- Footwear as treatment
- De-orthoticising feet to strengthen & restore

SPEAKER: 2102 IVO International Medical Footwear Conference, through to centre stage at City2Surf Expo.

INTERVIEWS: Ch 9 News, 'The Australian', 'Good Health' and more...

"EXCELLENT AND OUTSIDE THE SQUARE APPROACH"

EACH SESSION

FEATURES

- Application of high-power medical laser in a complex patient case
- Overview of 1 clinical condition/technique
- Tips 'N' Tricks e.g. KT for nocturnal cramps

REGISTER:

www.drfootsolutions.com.au/cpd-program or **CALL** 02 9181 2113

ORTHOSES

- Are customised/support orthotics the best option when over 300 pre-forms are available for clinicians use?
- What does the evidence show?

KNEE OA/ INJURY

- Which footwear offloads knee by up to 20% and increases knee muscle activity?
- What the compelling evidence says on Medical Laser / PBM for knee O/A

MORTON'S NEUROMA

- Have we 'medicalised' symptoms increasingly brought on by wrong sports shoe features?
- How do we deal with these challenges?

FOOTWEAR FOR DIABETES

- Is overly supporting and protecting the foot and oedema the best option?
- Could this approach be worsening loads at knees and hips, limiting these patients' mobility?

WHOLESALE DISTRIBUTION OF FOOT STRENGTHENING PRODUCTS

- Foot strengthening orthotics – Barefoot Science neuromuscular / stimulate balance
- Toe Trainers – To develop/reclaim function

BAREFOOT SCIENCE

"The only orthotic you will need in Clinical, Telehealth, Domiciliary Practice... No more fit problems!"
